

We are the 'Pro' in Protection

Personal Protection Equipment

COMPOSITES SOLUTIONS

Customised solutions for your protection

Composites Solutions is one of the most technical advanced manufacturers of protection equipment in the world. The company was founded in 2010 and offers with its team more than 25 years of experience in the ballistic sector. We are experts in the technical development, sales and marketing. We invest all our experience to always develop the best product for our customers.

We develop and manufacture personal protection equipment for Army, Police, Special Forces and SWAT Teams.

- ✔ Body Armor
- ✔ Ballistic Helmets
- ✔ Ballistic Insert Plates
- ✔ Ballistic Shields

Body Armor

Composites Solutions sets new standards for performance, flexibility and weight of their body armor designs. We focus on manufacturing a wide range of ergonomic and unique body armor styles which exceed all expectations. Covert vests, Overt vests, Tactical vests and Flotation vests are only few in the wide portfolio of body armor models of Composites Solutions. Our Company utilizes the newest state of the art ballistic solutions to offer best possible protection with maximum comfort and mobility.

Ballistic Insert Plates

Most advanced manufacturing technologies allow Composites Solutions to offer a wide range of high-performance insert plates for various protection standards and requirements. We offer a wide selection of insert plate designs with various ergonomic shapes, dimensions and material finishes. We are competent to develop and manufacture insert plates on specific demands in order to support our clients. Composites Solutions insert plates comply with all major international testing standards.

Ballistic Helmets

Composites Solutions developed several ballistic helmet options in order to fulfill the requirements of its various end-users such as Army, Police, SWAT and Special Forces. All of Composites Solutions ballistic helmets provide highest possible protection to minimize the risk of head injuries. Various chin straps, harness designs and suspension systems guarantee an optimized fit to the head. Composites Solutions ballistic helmets can be upgraded with all modern head mounted devices and communication systems.

Ballistic Shields

Composites Solutions understands the growing demand of military and law enforcement agencies around the world for lightweight ballistic shields. We make it a priority to develop and manufacture a wide range of high-performing ballistic shields to be used in critical situations. All our ballistic shield designs are available in multiple ergonomic shapes, dimensions and material finishes. Composites Solutions ballistic shields provide protection against various rifle calibers and comply with all major international testing standards.
